

The background of the entire page is a dark blue color. It is decorated with a pattern of light blue wavy lines, resembling stylized water or ripples. These lines are arranged in a grid-like fashion, with some lines being slightly offset or missing in certain areas, creating a dynamic and textured effect.

PREVIEW – SWIMMING

Halfway to 2028 Olympics: Almost 700 swimmers from 47 EA federations (+ NAA and NAB) to participate at European Aquatics Championships in Paris – 43 titles at stake

Paris (EA) The halfway point on the road to the 2028 Olympic Games is reached. With the 38th European Aquatics Championships, the continent's swimming elite returns for another "Rendezvous" with the "City of Love Paris"—the venue of the most recent and so successful Olympic Games.

For some of the top stars the competitions in the Centre Aquatique Olympique Stade de France in the Paris district of Saint-Denis will serve as an interesting and important test and a good opportunity to check their status quo on the road to Los Angeles 2028. For others, especially the younger ones or newcomers, it offers a fantastic chance to reach a final or even make it onto the podium for the first time in front of an enthusiastic crowd.

Italy, NAB, Germany, Great Britain and Poland with biggest teams

Featuring 43 events (including the mixed 4x200m freestyle relay, only held at European Championships), a total of 47 of the 52 LEN Member Federations and additionally the team of Neutral Athletes A (Belarus) and Neutral Athletes B (Russia) will participate with 697 athletes (261 female / 436 male).

Host France will compete with 27 swimmers. The far largest teams come from Italy (50 athletes), who missed the last edition in Belgrade, followed by the Neutral Athlete B (42), Germany (36), Great Britain (35) and Poland (32).

Additionally, 20 Para swimmers (11 female and 9 male) from eight federations – among them athletes who already competed and won medals at Paralympics – will have the chance to show-up in Paris. They are set for the para competitions in the 50m freestyle and 100m freestyle event which take place on August 15 and 16.

Hosts France, led by Léon Marchand – Superstar has to skip medley events

Host France is fielding its strongest swimmers for the 43 medal events, led by their superstar **Léon Marchand**. The four-time 2024 Olympic champion and world record holder on the 200 and 400m individual medley had been forced to withdraw early from the national championships in June due to an adductor injury.

Although the injury sustained by this crowd favorite has since healed well, the 24-year-old is opting out of his signature events—the 400m individual medley (on Monday) and the 200m individual medley. Nevertheless, France's hopes rest on Marchand, who will compete in the 400m freestyle and 200m butterfly.

Teammate **Maxime Grousset**—who broke a bone in his left foot in early June—still plans to swim four events: the men's 50m freestyle, 100m freestyle, 50m butterfly, and 100m butterfly. His battles with Switzerland's **Noé Ponti** in the butterfly events are likely to be among the highlights of the European Championships.

PREVIEW – SWIMMING

Ponti's career progressed rapidly, started in a haul of four medals across four events at the 2023 European Short Course Swimming Championships in Otopeni, and culminated with two bronze medals (50+100m fly) at the 2025 World Championships in Singapore (50+100m fly).

Germany aims to build on the highly successful first week of the European Championships in Paris in Diving, Artistic Swimming and Open Water Swimming. With 400m freestyle Olympic champion **Lukas Maertens** and the world champions **Isabel Gose**, **Angelina Koehler**, and **Anna Elendt**, the Germans are fielding their top swimmers in Paris.

Additionally, Germany faces a challenge regarding both - the quality and quantity of its male swimmers - in the "long-distance" events. While **Florian Wellbrock** focused on open-water competitions and is sitting out the pool events scheduled for the coming week, a trio comprising **Oliver Klemet**, **Sven Schwarz**, and shooting star **Johannes Liebmann** stands ready to be serious contenders for medals, particularly in the 800m and 1500m freestyle events. The latter holds the current European record in the 800m freestyle, while Schwarz is the previous record holder— no need to say more about that.

The competition comes from within their own ranks. The German freestyle aces will have to give their all right from the preliminary heats to secure one of the two final spots available per nation. Once in the final, their chances of winning a medal are good.

Klemet and Liebmann have already "warmed up" in the river Seine; Klemet finished second at the same venue where he had previously won Olympic silver in 2024. 19-year-old Liebmann, who became Vice European Junior Champion in the 3km knockout race just under two weeks ago, also heads into the pool competitions with plenty of momentum following his Top-10-performance in the Seine.

Focus on 50m events: Comebacks for Sarah Sjoestroem and Adam Peaty?

At the upcoming 2028 Olympic Games in Los Angeles, medals will be contested in all 50m events for the first time (previously limited to freestyle, but now including backstroke, breaststroke, and butterfly).

This is the moment when the two other swimming superstars will step into the spotlight in Paris: Sweden's **Sarah Sjoestroem** will compete in a big event for the first time since the birth of her son Adrian, and Adam Peaty, since his marriage last December **Adam Ramsey-Peaty**, will be going "full throttle" since his last appearance on the European stage in Budapest 2021 when the silver medallist of Paris 2024 won two Gold in the 50m and 100m breast.

The World Record holder on the 50 and 100m breaststroke made his comeback recently at the Commonwealth Games in Glasgow in late July but had to settle for "only" two bronze medals in the 50m and 100m breaststroke. It will be interesting to see if he can prevail against his competitors in Paris.

The meanwhile 32-year-old Sjoestroem was one of the youngest gold medalists ever at European Swimming Championships and won her very first European title in Eindhoven 2008 at age 14. The multiple Olympic (Gold in Rio 2016 – 100m butterfly, Gold in Paris 2024 on the

PREVIEW – SWIMMING

50 and 100m freestyle -altogether 6 olympic medals), World and European Champion returned to the pool in April and is focusing on the 50m freestyle and the 50m butterfly in Paris.

Another world record holder (50m backstroke), **Kliment Kolesnikov**, is also returning to the pool at Europeans, competing for the Neutral Athletes B (NAB). Kolesnikov (50 and 100m backstroke) leads a strong team featuring big names into the championships in Paris. It will be interesting to see what the final medal table looks like.

Ponti, Kos, Milak, Popovici – Superstars promise thrilling competitions

A glimpse at the names on the entry lists promise some outstanding races and thrilling competition at these Championships: Hungary's superstars **Hubert Kos** (Olympic Champion 200m back), who together with Frenchman Marchand trains Phelps' former mentor Bob Bowman, and **Kristof Milak** (two-time Olympic Champion/200m fly 2024 and 100m fly 2021 as well as two-time silver medallist), who broke Michael Phelps' 10-year-old world record in the 200m fly at the 2019 World Championships in Gwangju and further improved it (1:50.34) at the 2022 Worlds in Budapest.

Romania's superstar **David Popovici** arrives not only as the title defender in the 100 and 200m freestyle. He also won the two gold in these competitions in Rome 2022 and – as the so far highlight of his career – he achieved Gold (200m freestyle) and and Bronze (100m freestyle) at the Olympics in Paris.

Steenbergen, Quadarella, Gose and Curtis – Superwomen promise tough battles

Simona Quadarella, Isabel Gose, Marrit Steenbergen, Sara Curtis and Anna Elendt enter the women's competitions as top contenders for the medals. Exciting races are expected, particularly in the long-distance freestyle events involving the Italian Quadarella and Gose - the latter having already secured two gold medals in Paris in the open-water knockout race and the team event.

Marrit Steenbergen aims to crown herself the "Queen of Freestyle" once again. The Dutch swimmer, who celebrated her first European titles in Rome in 2022, most recently broke the 100m freestyle world record (51.68) in July and is considered the top favorite for gold in the French capital.

Italy's **Sara Curtis** also arrives as a medal contender, having set a new European record in the 50m backstroke (27.07) in front at a home crowd at "Trofeo Sette Colli" in Rome this June.

Belgium's **Roos Vanotterdijk** has also been on a remarkable upward trajectory of late— the 21-year-old, who won Silber (100m fly) and bronze (50m fly) at the Worlds in Singapore, is keen to continue her winning streak in Paris. Same goes for Germany's Anna Elendt, who travels to Paris as the actual World Champion on the 100 breaststroke.

PREVIEW – SWIMMING

The following 48 EA member federations (+NAA +NAB) have entered swimmers for Paris

Nation	Athletes	
ALB – Albania	4	(1)

UKR – Ukraine	11	(47)
NAA – Neutral Athletes A	8	
NAB – Neutral Athletes B	43	

EDUCATIONS FACTS: UNDERSTANDING COMPETITIVE SWIMMING

Swimming at the European Aquatics Championships combines speed, precision and technical mastery. Races are often decided by hundredths of a second, making starts, turns and finishes just as important as swimming speed itself.

Competition takes place in four strokes — Freestyle, Backstroke, Breaststroke and Butterfly — as well as Individual Medley and Relays. Each discipline has specific technical rules that athletes must follow throughout the race.

THE FOUR STROKES

Freestyle

What is it?

In Freestyle, athletes may swim any stroke. In practice, almost all swimmers use the front crawl because it is the fastest technique.

Key rules

- Athletes may remain underwater for a maximum of 15 metres after the start and after each turn.
- At least one part of the body must touch the wall at every turn and at the finish.
- Freestyle generally produces the fewest rule infractions.

What to watch for

- Powerful starts and underwater butterfly kicks.
- Fast, efficient turns.
- Sprint finishes often decided by extremely small margins.

Backstroke

What is it?

Backstroke is the only stroke swum entirely on the back and the only event that starts from inside the water.

Key rules

- Swimmers must remain on their back throughout the race, except during turns.
- A maximum underwater distance of 15 metres is allowed after starts and turns.
- Athletes must touch the wall while on their back at the finish.
- During the turn, swimmers may rotate onto the breast before touching the wall.

Common infractions

- Exceeding the 15-metre underwater limit.

What to watch for

- Explosive underwater phases.
- Precision timing into the wall during turns.
- Stroke rhythm and lane awareness without direct forward vision.

EDUCATIONS FACTS: UNDERSTANDING COMPETITIVE SWIMMING

Breaststroke

What is it?

Breaststroke is considered the most technical stroke in swimming due to its strict movement requirements.

Key rules

- Arm and leg movements must be simultaneous.
- Feet must turn outward during the kick.
- A single butterfly kick is permitted after the start and each turn.
- Both hands must touch the wall simultaneously at turns and finishes.
- Unlike the other strokes, there is no 15-metre underwater limit.

Common infractions

- Multiple butterfly kicks after starts or turns.
- Non-simultaneous touches at the wall.
- Illegal downward butterfly kicks during the race.

What to watch for

- Timing between pull and kick.
- Smooth, efficient glide phases.
- Close VAR reviews following finishes or turns.

Butterfly

What is it?

Butterfly is one of the most physically demanding swimming disciplines, requiring simultaneous arm and leg movement.

Key rules

- Both arms must move simultaneously over and under the water.
- Leg movements must also remain simultaneous.
- Breaststroke kicking movements are not allowed.
- Both hands must touch the wall simultaneously at turns and finishes.
- Swimmers may stay underwater for a maximum of 15 metres after starts and turns.

Common infractions

- Exceeding the 15-metre underwater limit.
- Non-simultaneous touches.
- Illegal alternating leg movements.

What to watch for

- Powerful underwater phases.
- Stroke rhythm and breathing control.
- Fatigue management in the closing metres.

EDUCATIONS FACTS: UNDERSTANDING COMPETITIVE SWIMMING

MEDLEY EVENTS

Individual Medley (IM)

What is it?

In Individual Medley races, swimmers compete in all four strokes in the following order:

1. Butterfly
2. Backstroke
3. Breaststroke
4. Freestyle

Each stroke covers one-quarter of the total race distance.

Key points

- Athletes must respect the technical rules of each stroke section.
- Freestyle in medley cannot be Backstroke, Breaststroke or Butterfly.
- The Backstroke-to-Breaststroke transition is one of the riskiest moments in swimming, as the Backstroke section must be finished while on the back.

What makes it exciting?

The Individual Medley rewards the most complete swimmers, testing versatility, endurance and technical skill.

Common infractions

Incorrect positioning at the finish.

Medley Relays

In Medley Relays, teams compete in all four strokes in the following order:

- Backstroke
- Breaststroke
- Butterfly
- Freestyle

EDUCATIONS FACTS: UNDERSTANDING COMPETITIVE SWIMMING RELAYS

Relay Events

What are they?

Relay races feature teams of four swimmers. Mixed relays include two men and two women.

Key rules

- Each athlete swims one quarter of the total race distance.
- Relay exchanges are critical: the outgoing swimmer must remain in contact with the starting block until the incoming swimmer touches the wall.

What to watch for

- Fast exchanges can decide medals.
- Relay races often create the loudest atmosphere in the arena.
- Mixed relays introduce tactical decisions regarding swimmer order.

COMPETITION FORMAT

Typical Schedule

Morning Sessions

- Heats

Evening Sessions

- Semi-finals (16 athletes)
- Finals (8 athletes or relay teams)

Race Structure

- 50m, 100m and 200m events: heats, semi-finals and finals.
- 400m and longer events, plus relays: heats and finals only.

KEY MOMENTS IN A RACE

Starts and Underwaters

- The start, underwater phase and turns are often where races are won or lost. Elite swimmers can gain significant advantages through faster reaction times and stronger underwater kicking.

Turns

- Efficient turns help swimmers maintain speed and momentum. Small technical differences can determine qualification or medal positions.

Relay Exchanges

- Relay takeovers are measured electronically and reviewed on video. Even tiny early movements can lead to disqualification.

EDUCATIONS FACTS: UNDERSTANDING COMPETITIVE SWIMMING

VIDEO REVIEW & OFFICIATING

VAR in Swimming

Swimming competitions use Video Assistant Referee (VAR) systems alongside pool-deck officials.

How it works

- Video judges monitor races at live speed using multiple camera angles.
- Any reported potential rule infraction is reviewed in real time, slow motion and frame-by-frame.
- The Video Review Supervisor confirms whether an infraction occurred before a disqualification is issued.

Why results may be delayed

Reviews can take approximately one minute after a race to ensure decisions are accurate and fair.

Relay exchange technology

Relay exchanges are judged using:

- Reaction-time systems
- Automatic officiating equipment (AOE)
- High-speed video replay

If an exchange reaction time is faster than the permitted threshold, officials automatically review the video footage.

COMMON MISCONCEPTIONS

Silence at the Start Is Essential

Swimming arenas can be loud and energetic, but complete silence is required before the start.

Even small noises can disturb athletes during this critical phase. Referees and starters cannot begin the race until the venue is silent.

RECENT RULE UPDATES

Recent World Aquatics rule updates include:

- Lap counters and warning signals now also apply to 400m Freestyle races.
- Swimmers may now be fully submerged approaching the finish in Freestyle and Butterfly.
- Athletes are permitted to use tape on maximum two fingers or toes to protect injuries.
- There are currently no additional limitations on body taping.

EDUCATIONS FACTS: UNDERSTANDING COMPETITIVE SWIMMING

QUICK FACTS

Did You Know?

- Swimming races are frequently decided by less than one tenth of a second.
- Underwater phases are often referred to as the “fifth stroke”.
- Relay exchanges are measured to hundredths of a second.
- All disqualifications are reviewed on video before being confirmed.

All-time European Medal Table – Swimming LC
